

Shaver's Creek Team Development Center specializes in developing the skills critical to a successful team performance: cooperation, trust, effective communication, commitment and leadership. Due to current restrictions related to COVID19, we feel we are best able to serve our community at this pivotal moment through networking events that build connections that are so vital at this time. Our facilitators have developed and selected program components that will allow us to continue our mission driven work of providing experiences that enable communities to pursue harmony and connection while also maintaining appropriate measures to keep our community safe.
